

Abdelrahman Amawi

Operations Automation & Analytics

abdelrahman.amawii@gmail.com – 962-79-519-6712 – Amman, Jo 

SUMMARY

Data Analyst and Operations Analytics Specialist with 7+ years of experience across global corporates including Amazon and Aramex, specializing in business intelligence, operational analytics, reporting automation, and process optimization. Experienced in building interactive dashboards and automated reporting solutions using SQL, Power BI, QuickSight, Tableau, Excel, Power Query, and automation frameworks to support data-driven decision-making across Customer Experience, Compliance, and Operations. Delivered \$450K+ in operational savings, reduced 3K+ annual manual work hours, and supporting automation pipelines processing 12K+ operational requests annually. Developed KPIs and ETL workflows. Mastered defect trend analysis, root cause analysis, stakeholder reporting, and converting large operational datasets into business insights.

SKILLS AND COMPETENCIES

Technology and Automation

- **Developed AI-driven automation** tools and agents using Amazon Bedrock, Kiro, Python, JS, AgentCore, and MCP tools for defect detection, task processing, and reporting, saving **45%** in manual work.
- **Integrated LLMs for decision support in workflow automation** while maintaining strict compliance and operational standards.
- **Built interactive dashboards** in Power BI, Tableau, and QuickSight, enabling team members to track operational KPIs and defect trends.
- **Automated large-scale Excel and SharePoint/Power Automate workflows**, reducing manual effort, eliminating errors, and saving 700 annualized working hours.

Technical Stack: Power BI, Power Query, DAX, ETL, Tableau, SQL, QuickSight, Amazon Bedrock, AgentCore, Python (vibe), JavaScript (vibe), Bash, AWS, Amazon Q Developer CLI, LLM APIs, RAG architectures, MCP tools, WSL Power Automate, Excel Macros, SharePoint automation

PROFESSIONAL EXPERIENCE

Compliance Systems Analyst

Jan 2026 – Present

 – **Aramex.** Governance, Risk, and Compliance Amman, Jordan

- **Designed and deployed interactive compliance dashboards in Power BI**, utilizing Power Query for ETL workflows, DAX for advanced calculations, and automated refresh pipelines to deliver real time insights on 40,000+ monthly screenings and CAPA trends to enhance audit readiness.
- **Automated recurring compliance reports** using Dynamics 365 AI Agent, Power Automate and VBA, saving 10+ hours per week of manual tracking and reconciliation.
- **Conducted 7,000+ monthly end-to-end party and shipment screening** for customers, companies, and freight against international sanctions and regulatory lists (OFAC, BIS, ITAR, AECA, CSL, Embargos, and more).
- **Investigated 20+ non-compliance incidents per month** and implemented corrective and preventive action plans (CAPA).

Support Operations Analyst

July 2021 – Dec 2025

 – **Amazon.** Customer Experience, Concessions & Andon Amman, Jordan

- **Led regional Andon programs to resolve defective processes and products**, driving \$100k+ in annual concession savings across MENA operations and 50k+ defects reduced using Agile methodologies.
- **Designed and deployed LLM-powered automation pipelines** for pre-shipping SIM cancellations and Andon audit automation effort, running autonomously on AWS with 95% accuracy.
- **Developed automation tooling** using Python, PowerShell, JavaScript, and AWS services to orchestrate end-to-end automated task execution.
- **Built operational dashboards using QuickSight and Tableau** enabling defect trend analysis and real-time decision support for operations teams.
- **Built AI-assisted agents** capable of processing 12K+ operational requests annually, reducing ~2.5K hours of manual work and eliminating repetitive human intervention.

Subject Matter Expert

Jan 2021 – July 2021

 – **Amazon.** Customer Service Amman, Jordan

- **Supervised and mentored new Customer Service Associates**, providing hands-on support such as coaching, training, and performance feedback.
- **Monitored operational KPIs**, implemented improvement plans, and served as floor escalation point for operational challenges.
- **Collaborated with Training, Operations, and Quality teams** to identify knowledge gaps and optimize the onboarding experience for new hires.

Customer Service Associate

 – Amazon. Customer Service

- Managed live customer interactions for UAE and UK stores, identifying recurring issues and generating data-driven process improvements to enhance service workflows.
- Investigated technical issues and escalated critical cases to leadership.

Apr 2020 – Jan 2021

Amman, Jordan

Account Manager and Consultant

 Kharabeesh Inc.

- Conducted bug testing, UATs, and troubleshooting to improve platform stability and user experience.
- Managed and administered multiple professional accounts assigned by the company to maintain high standards of content quality and community interaction.
- Monitored live streams and professional accounts, ensuring quality content and safe engagement.

Apr 2018 – Jan 2020

Amman, Jordan
